Securities registered pursuant to Section 12(g) of the Act: NONE

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes [X] No []

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. []

The aggregate market value of common shares held by non-affiliates of the registrant (based upon the closing sale price on the New York Stock Exchange) on March 11, 1998 was approximately \$2,077,089,783.

As of March 11, 1998, there were 85,874,513 shares of the Registrant's Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Part III incorporates by reference the Registrant's Proxy Statement for its Annual Meeting of Stockholders which the Registrant anticipates will be filed no later than 120 days after the end of its fiscal year pursuant to Regulation 14A.

PART I

ITEM 1. BUSINESS

GENERAL

AMB Property Corporation, a Maryland corporation (the "Company"), owns and operates industrial and retail properties totaling 43.5 million square feet located in 26 markets nationwide, including: Chicago, San Francisco Bay Area, Dallas/Ft. Worth, Los Angeles, Minneapolis, Atlanta, Seattle, Miami, Boston, and Northern New Jersey. As of December 31, 1997, the Company owned industrial properties, aggregating 37.3 million rentable square feet (the "Industrial Properties"), principally warehouse distribution properties, which were 95.7% leased, and retail properties, aggregating 6.2 million rentable square feet (the "Retail Properties"), principally grocer-anchored community shopping centers, which were 96.1% leased. The Industrial Properties and the Retail Properties collectively are referred to as the "Properties."

</TABLE>

The Company currently employs 119 individuals, 95 of whom are located in its San Francisco headquarters and 24 in its Boston office, who are committed to carrying out the Company's business and operating strategies. The Company actively manages its Properties through its experienced staff of Regional Managers. See "Business and Operating Strategies -- Property Management."

The Company is self-administered and self-managed and expects that it has qualified and will continue to qualify as a real estate investment trust ("REIT") for Federal income tax purposes beginning with the year ending December 31, 1997. The principal executive offices of the Company and the Operating Partnership (as defined below) are located at 505 Montgomery Street, San Francisco, California 94111, and their telephone number is (415) 394-9000. The Company also maintains a regional office in Boston, Massachusetts.

FORMATION OF THE COMPANY

The Company commenced operations as a fully integrated real estate company in connection with the completion of its initial public offering (the "Offering") on November 26, 1997, and will elect to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986 (the "Code"), as amended, with its initial tax return for the year ended December 31, 1997. The Company, through its controlling sole general partnership interest in its subsidiary AMB Property, L.P., a Delaware limited partnership, (the "Operating Partnership") and through certain other direct and indirect subsidiaries is engaged in the ownership, operation, management, acquisition, renovation, expansion, and development of industrial properties and community shopping centers in target markets nationwide. As of December 31, 1997, the Company owned a 97.1% general partnership interest in the Operating Partnership. Unless the context otherwise requires, the "Company" shall include AMB Property Corporation, the Operating Partnership and its controlled subsidiaries.

The Company and the Operating Partnership were formed shortly before consummation of the Offering. AMB Institutional Realty Advisors, Inc., a California corporation and registered investment advisor (the

1

"Predecessor") formed AMB Property Corporation and merged with and into the Company (the "Merger")in exchange for 4,746,616 shares of the Company's Common Stock. In addition, the Company and the Operating Partnership acquired through a series of mergers and other transactions 31.8 million rentable square feet of

industrial property and 6.3 million rentable square feet of retail property in exchange for 65,022,185 shares of the Company's Common Stock, 2,542,163 limited partnership interests ("LP Units") in the Operating Partnership, the assumption of debt, and to a limited extent, cash.

On November 26, 1997, the Company completed its Offering of 16,100,000 shares of Common Stock, \$0.01 par value per share (the "Common Stock") for \$21.00 per share, resulting in gross offering proceeds of approximately \$338.1 million. Net of underwriters' commission and offering costs aggregating \$38.1 million, the Company received approximately \$300.0 million in proceeds from the Offering. The net proceeds of the Offering were used to repay indebtedness, to purchase interests from certain investors who elected not to receive shares or units in the Company, to fund property acquisitions, and to meet general corporate working capital requirements.

Upon consummation of the formation transactions and Offering, the Company owned a 97.1% interest in the Operating Partnership represented by a number of units of general partnership interest ("GP Units") which are convertible into an equal number of shares of Common Stock. The investors that elected to receive LP Units own the remaining 2.9% ownership interest in the Operating Partnership. For local law purposes, properties in certain states are owned through limited partnership and limited liability companies owned 99% by the Operating Partnership and 1% by a wholly-owned subsidiary of the Company. The ownership of such Properties through such entities does not materially affect the Company's overall ownership of the interests in the Properties. As the sole general partner of the Operating Partnership, the Company has the full, exclusive and complete responsibility and discretion in the management and control of the Operating Partnership. The purchase method of accounting was applied to the acquisition of the properties. Collectively, the Merger and the other formation transactions described above are referred to as the "Formation Transactions."

In connection with the Formation Transactions, the Operating Partnership acquired all of the non-voting preferred stock of AMB Investment Management Corporation, a Maryland corporation ("AMB Investment Management") representing a 95% economic interest therein. AMB Investment Management conducts its operations through AMB Investment Management Limited Partnership, a Maryland limited partnership ("AMB Investment Management Partnership"), of which it is the sole general partner and owns the entire capital interest. AMB Investment Management was formed to succeed to the Predecessor's investment management business of providing real estate investment management services on a fee basis to clients and intends to grow its business through the Company's co-investment program. All of the common stock of AMB Investment Management, representing a 5% economic interest therein, is owned by the Company's executive officers.

BUSINESS AND OPERATING STRATEGIES

The Company focuses its investment activities in hub and regional distribution markets and retail trade areas throughout the U.S. where opportunities exist to acquire and develop additional properties on an advantageous basis. The Company is a full-service real estate company with in-house expertise in acquisitions, development and redevelopment, asset management and leasing, finance and accounting and market research. The Company has long-standing relationships with most of its real estate management firms across the country, which provide local property management and leasing services to the Company on a fee basis.

The Company believes that (i) the industrial property sector is well-positioned to benefit from strong market fundamentals and growth in international trade (ii) the retail property sector will benefit from limited new construction in "in-fill" locations and from projected growth in personal income and retail sales levels in the Company's markets (in-fill locations are those typified by significant population densities and low availability of land resulting in limited opportunities for new construction of competitive properties). The

2

Company seeks to capitalize on these current conditions in the industrial and retail property sectors by implementing the following business and operating strategies:

NATIONAL PROPERTY COMPANY

The Company believes that its national strategy enables it to (i) increase or decrease investments in certain regions to take advantage of the relative strengths and attractive investment opportunities in different real estate markets, (ii) retain and accommodate tenants as they consolidate or expand, particularly in its Industrial Properties, and (iii) build brand awareness as well as customer loyalty through the delivery of consistent service and quality product. Through its presence in markets throughout the U.S., the Company has developed expertise in leasing, expense management, tenant retention strategies and property design and configuration. Management believes its strategy of owning and operating both industrial properties and community shopping centers offers the Company an optimal combination of growth opportunities, strong current income and stability through market cycles. The Company has developed the expertise, infrastructure and management information systems to acquire, reposition, develop and operate these two property types. Management believes that its dual property strategy provides significant opportunities to allocate capital and organizational resources between property types according to changing market conditions and its investment strategy.

SELECT MARKET FOCUS

The Company intends to continue its strategy of investing in hub and regional distribution markets and retail trade areas across the country to capitalize on changes in the relative economic strength of these regions. The Company focuses on acquiring, redeveloping and operating properties in in-fill locations. As the strength of these markets continues to grow and the demand for well-located properties increases, the Company believes that it will benefit from an upward pressure on rents resulting from the increased demand combined with the relative lack of new available space.

Industrial Property Selected Hub and Regional Distribution Markets. The Company focuses its industrial property investment activities in six hub markets which dominate national warehouse distribution property activities: Atlanta, Chicago, Dallas/Fort Worth, Los Angeles, Northern New Jersey and San Francisco Bay Area. The Company also invests in selected regional distribution markets including Boston, Houston, Miami, Minneapolis, San Diego, Seattle and Baltimore/Washington, D.C. The Company focuses on these established industrial markets because management believes they offer large and broadly diversified tenant bases that provide greater demand for properties over market cycles than secondary markets. In-fill locations within these markets also typically have significant barriers to new construction including geographic or regulatory supply constraints, and benefit from an access to large labor supplies and well-developed transportation networks.

RESEARCH-DRIVEN MARKET SELECTION

The Company's decisions regarding the deployment of capital are experienceand research-driven, with investments based on thorough qualitative and quantitative research and analysis of local markets. The Company employs a dedicated research department using proprietary methodology and systems.

PROPERTY MANAGEMENT

The Company actively manages its properties through its experienced staff of 16 Regional Managers, each of whom specializes in the management of industrial properties or community shopping centers in designated markets. The Company typically outsources property management through its Management Alliance Program to a select group of third-party local managers (Alliance Partners) with whom the Company has developed strong relationships. Regional, market and property-type focus provides Regional Managers with extensive knowledge of real estate trends and supply and demand activity in their markets as

well as an effective network of local contacts who provide sources for market data, leads for new tenants and property acquisitions, and opportunities to enhance the value of the Properties. From January 1, 1994 through December 31, 1997, the weighted average tenant retention rate of the Properties was approximately 71.5% for the Industrial Properties and approximately 82.8% for the Retail Properties, based on aggregate square footage. Management believes that these tenant retention rates reflect the success of the Company's operating and tenant-service driven property management strategy.

The Company's Regional Managers make all major business decisions regarding the Properties, and have broad responsibilities that include implementing an annual business plan for each asset, formulating leasing strategies, establishing leasing terms and conditions, negotiating leases, approving and monitoring leases and capital expenditures, planning and implementing renovation, expansion and development, establishing annual operating and capital budgets and effecting dispositions. The Company's Regional Managers utilize local leasing agents to identify prospective tenants and document lease transactions. Management Alliance Partners (who are third-party local property service providers) are engaged to oversee custodial property matters such as rent collection, tenant requests, maintenance and repair, and supervision of cleaning and security services. The Company monitors the performance of its properties on a daily basis through the use of the Company's proprietary asset information system. This management tool enables the Company not only to monitor the operating performance of a property (and the local property manager), but also to review and communicate strategic initiatives to the local property manager on a real-time basis and to compare the property's performance to online budgets and objectives.

Management believes that its approach to property management and its Management Alliance Program enable the Company to more effectively manage fixed operating costs associated with a national portfolio. By forming alliances with third-party local property managers, which management believes to be the leading property managers in their respective markets, the Company can enter and exit markets efficiently without the administrative burden of retaining a large staff. Since the Company is the customer, rather than the competitor of third-party management firms, these firms are also a source of new acquisition opportunities in the respective markets, thus providing the Company with greater access to transaction flow. Management believes this approach also gives the Company a competitive advantage in capitalizing on the increasing trend among corporations to outsource their real estate service requirements to property management companies.

DISCIPLINED INVESTMENT PROCESS

Over the past 14 years, the Company, including the operations of its Predecessor, has established a disciplined approach to the investment process through operating divisions which are subject to the overall policy direction of the Company's Investment Committee. The stages in the investment process are highly integrated, with Investment Committee review at critical points in the process.

Approval of each investment is the responsibility of the Investment Committee with sponsorship from both the Acquisitions Officer and the Regional Manager with ultimate responsibility for managing the property. The initial investment recommendation is thoroughly evaluated, with approval required in order to proceed to contract and full due diligence. The terms of the acquisition and its structure are determined as part of the initial approval and are the responsibility of the Acquisitions Officer. The Regional Manager is involved in providing and verifying underwriting assumptions and developing the operating strategy. After the due diligence review and before removing conditions to the contract, the acquisition and operating team prepares a final Investment Committee recommendation. The Investment Committee conducts a complete review of the information developed during the due diligence process and either rejects or gives final approval. To facilitate the acquisition process, the Company has proprietary systems and procedures to manage and track a high volume of acquisition proposals, transactions and important market data. This includes an on-line open issues database that provides current information on the status of each transaction, highlighting the issues that must be addressed prior to closing, and a database that includes and compiles data on all transaction proposals and markets reviewed by the Company.

4

RENOVATION, EXPANSION, AND DEVELOPMENT EXPERIENCE

The multidisciplinary backgrounds of the Company's employees provide it with the skills and experience to capitalize on strategic renovation, expansion and development opportunities. Several of the Company's officers have extensive experience in real estate development. The Company generally pursues development projects in joint ventures with local developers. This allows the Company to leverage development skill, access opportunities and capital of such developers, transfer a significant amount of the development risk to them, and eliminate the need and expense of an in-house development staff.

FINANCING STRATEGY

In order to maintain financial flexibility and facilitate the rapid deployment of capital over market cycles, the Company intends to operate with a debt-to-total market capitalization ratio of less than 45%. Additionally, the Company intends to structure its balance sheet in order to obtain and maintain an investment grade rating on its senior unsecured debt. The Company intends to keep the majority of its assets unencumbered to facilitate such rating. As of December 31, 1997, the Company's debt-to-total market capitalization ratio was approximately 23.6%.

The Company and the Operating Partnership may utilize multiple sources of equity capital including public or private common stock offerings, convertible or non-convertible preferred stock offerings and purchases of property with common stock, convertible shares or LP Units.

The Company has a \$500 million unsecured revolving credit agreement (the "Credit Facility") with Morgan Guaranty Trust Company of New York as agent, and a syndicate of twelve other banks. Such facility bears interest at a rate equal to LIBOR plus 110 basis points through August 1998 or until the Company receives an investment grade debt rating. Thereafter, borrowings under the Credit Facility will bear interest at a rate equal to LIBOR plus 90 to 120 basis points, depending upon the Company's then current debt rating. Management presently plans to use available borrowings under the Credit Facility for property acquisitions and for general corporate purposes.

AMB INVESTMENT MANAGEMENT

AMB Investment Management was formed to succeed to the Predecessor's investment management business of providing real estate investment management services on a fee basis to clients. The purpose of the co-investment program is to generate incremental revenues for the Company through co-investment with the

Predecessor's clients that chose not to participate in the Formation Transactions and certain other institutional investors.

AMB Investment Management's co-investments will be consistent with the Company's acquisition and development strategies. The Company will assume day-to-day control over operations and management of the investments and will earn a return on its pro rata share of the investments, plus AMB Investment Management may earn fee revenue relating to the co-investments.

STRATEGIES FOR GROWTH

The Company intends to achieve its growth objectives of long-term sustainable growth in Funds from Operations ("FFO") per share and maximization of long-term stockholder value, principally by growth through its (i) strategic alliance program, as discussed below, (ii) operations, resulting from improved operating margins within the portfolio while maintaining above-average occupancy, (iii) acquisitions, including through the co-investment program of AMB Investment Management and (iv) property renovation, expansion and selected development.

STRATEGIC ALLIANCE PROGRAMS

The Company has developed five uniquely targeted strategic alliance programs that are designed to foster growth through mutually beneficial partnerships with different audiences in the real estate market.

5

The UPREIT Alliance Program is for those property owners and developers seeking a tax deferred method of disposing of their assets. These knowledgeable individuals can choose to continue to provide management services.

The Development Alliance Program is designed for leading local and regional developers with whom the Company can jointly acquire, renovate, and develop properties with growth potential.

The Customer Alliance Program builds long-term working relationships with major tenants and leading local and national leasing firms to capitalize on the Company's national portfolio of properties.

In the Management Alliance Program, the Company forges close ties with local property managers. This is a key difference between the Company and other national REITs that attempt to build their own organizations to provide all local services.

The Institutional Alliance Program is for institutional investors who prefer a private investment format for their real property holdings and the alignment of interests offered by co-investment with the Company. At some future date these investors may choose to contribute their properties for equity interests in the Company or the Operating Partnership.

The Strategic Alliance Programs are a fundamental element of the Company's overall growth and investment strategy. Each stresses flexibility, cooperation and partnership, rather than competition, and management believes they give the Company a significant advantage in the form of improved access to local market insight, growth opportunities, and new investments.

GROWTH THROUGH OPERATIONS

As of December 31, 1997, the Industrial Properties were 95.7% leased and the Retail Properties were 96.1% leased. The Company seeks to improve operating margins by capitalizing on the economies of owning, operating and growing a large-scale national portfolio. In 1997, the Company increased average contractual or base rental rates on the Properties by 12% on 393 new and renewing leases totaling 7.5 million rentable square feet (representing 17.2% of the Properties' aggregate rentable square footage). During 1998 leases encompassing an aggregate of 10.5 million rentable square feet (24.1% of the Company's aggregate rentable square footage) are subject to contractual rent increases resulting in an average rent increase per rentable square foot of \$1.31, or 5.7%, for an aggregate increase of \$3.5 million. Based on recent experience and current market trends, management believes it will have an opportunity to increase the average rental rate on Property leases expiring during 1998 covering an aggregate of 6.1 million rentable square feet.

The Company will seek to reduce the potential volatility of the portfolio's FFO by managing lease expirations so that they occur within individual properties and across the entire portfolio in a staggered fashion, and by monitoring the credit worthiness and mix of tenants, particularly those in the Retail Properties.

GROWTH THROUGH ACQUISITIONS

The Company acquired 5.5 million rentable square feet of industrial property located in 11 markets throughout the United States during December 1997, bringing the year end total industrial square feet of all Industrial

Properties to 37.3 million. In addition, during the period from January 1, 1998 through March 11, 1998, the Company acquired 789,804 rentable square feet of industrial property and 730,336 rentable square feet of retail property. The Company believes its significant acquisition experience and its extensive network of property acquisition sources will continue to provide opportunities for external growth. Management believes that there is a growing trend among large private institutional holders of real estate assets to shift a portion of their direct investment in real estate assets to more liquid securities such as common stock and units in publicly traded REITs. The Company has relationships with a number of the nation's leading pension funds and other institutional investors, many of whom have large portfolios of industrial properties and community shopping centers. Management believes that the Company's relationship with third-party local property managers also will create acquisition opportunities as such managers market properties on behalf of unaffiliated sellers. The Company also will continue active investment management of a number of portfolios through AMB Investment Management. The Company believes that through these relationships it will have

.

opportunities to acquire portfolios in exchange for equity interests in the Company or the Operating Partnership, and will be well positioned to facilitate such investors' shift from private to public real estate ownership.

The Company's operating structure also provides sellers the opportunity to contribute properties to the Operating Partnership on a tax-deferred basis in exchange for LP Units. The Company believes that its ability to offer tax-deferred transactions to sellers will enhance its attractiveness to local owners and developers. In addition, local developers can continue to participate as partners with the Company in local projects.

GROWTH THROUGH RENOVATION, EXPANSION, AND DEVELOPMENT

Management believes that renovation and expansion of value-added properties, and development of well-located, high quality industrial properties and community shopping centers, offer attractive opportunities for increased cash flow and a higher risk-adjusted rate of return than may be obtained from the purchase of fully leased, renovated properties. Value-added properties are typically characterized as properties with available space or near-term leasing exposure, properties that are well located but require redevelopment or renovation, and occasionally undeveloped land acquired in connection with another property that provides an opportunity for development. Such properties require significant management attention and/or capital to maximize their return. The Company has developed the in-house expertise to create value through acquiring and managing value-added properties. As of December 31, 1997, the Company had six projects in process with a total expected investment of \$89.9 million. Because of the Company's expertise with these types of assets, management believes it has the ability to identify and acquire value-added properties and develop new properties. The Company will pursue development either in conjunction with its local network of development partners, including through investments therein, or through its established in-house development capability.

Renovation. Renovation of well-located properties offers the Company the opportunity to increase demand for space in its properties and add value to the portfolio. Certain properties acquired by the Company have some element of obsolescence or deferred maintenance, which can be remedied in a cost-effective manner in order to improve the marketability of the space.

Expansion. Certain properties provide opportunities to acquire adjacent land for nominal or no cost that can subsequently be used for expansion. When market conditions are favorable and tenant demand is present, the Company may expand these facilities to create additional value, without incurring additional land cost.

Development. The Company creates value through new development when opportunities arise through either the acquisition of undeveloped land (typically parcels acquired adjacent to existing properties) or through tenant relationships.

FOCUS ON INDUSTRIAL PROPERTIES AND COMMUNITY SHOPPING CENTERS

The Company operates industrial properties and community shopping centers in hub and regional distribution and retail trade areas throughout the United States. Management believes that its dual property strategy provides greater opportunities to deploy capital and organizational resources between industrial properties and community shopping centers, providing the Company greater flexibility in investing and balancing its property mix.

Management believes that industrial properties and community shopping centers share the following characteristics:

Fragmented Ownership. Historically, both industrial properties and community shopping centers have been developed and operated by local real estate investors and, as a result, are characterized by fragmented ownership, in which there is a lack of concentration of ownership. The Company believes this fragmented ownership provides opportunities for consolidation on a national basis.

Competition for Acquisitions. Management believes that, because of their relative size and fragmented ownership, industrial properties and community shopping centers are not as widely marketed and attract less

7

significant buyer interest than larger property types. Accordingly, management believes that these properties can generally be acquired on a less competitive basis.

Distribution of Goods and Necessities. Industrial property and community shopping center tenants distribute goods and necessities, either at the wholesale or retail level, or both. Management believes that such tenants are relatively insulated from the adverse effects of an economic downturn, and that industrial properties located in hub and regional distribution markets and community shopping centers located in selected trade areas generally have higher occupancy rates across market cycles.

Construction and Maintenance. Industrial properties and community shopping centers are typically of single-story construction, and improvements to such properties are generally limited to moving demising walls and repairing roofs and parking lots. Such property types also require less maintenance as compared to most other commercial property types.

Redevelopment Opportunities. As compared to other commercial property types, industrial properties and community shopping centers generally require less time and capital to renovate and reposition and, therefore management believes the corresponding increase in cash yield upon renovation tends to be higher.

Tenant Improvements. Industrial properties and community shopping centers generally do not require significant tenant improvements to attract new tenants as compared to other commercial property types.

Management. Industrial properties and community shopping centers generally do not require on-site property management.

BUSINESS RISKS

The Company's operations involve various risks which could have adverse consequences to the Company. Such risks include, among others:

- the ability of the Board of Directors to change the Company's growth and investment strategy and its financing, distribution and operating policies without a vote of the Company's stockholders;
- the need to renew leases or re-lease space upon lease expirations and to pay renovation and re-leasing costs in connection therewith, the effect of economic and other conditions on property cash flows and values, the ability of tenants to make lease payments, the ability of a property to generate revenue sufficient to meet operating expenses (including future debt service), and the illiquidity of real estate investments which could have an adverse effect on Funds from Operations and the Company's financial condition and results of operations;
- the possible failure of investments to perform in accordance with the Company's expectations, inaccuracy of estimates of costs of improvements to bring an acquired property up to standards, competition for attractive investment opportunities and other general risks associated with any real estate investment which could have an adverse effect on Funds from Operations and the Company's financial condition and results of operations;
- possible uninsured losses or losses in excess of insured limits relating to certain activities, including fire, rental loss and seismic activity which could have an adverse effect on Funds from Operations and the Company's financial condition and results of operations;
- in connection with the Company's property ownership through partnerships and joint ventures, the possibility that a co-venturer or another partner in a partnership may (i) become bankrupt while the Company and any other remaining partners or joint venturers remain liable for the liabilities of such partnerships or joint ventures, (ii) have economic interests inconsistent with those of the Company or (iii) sell its interest at a disadvantageous time or on disadvantageous terms, which could adversely effect the return realized by the Company in such investments;
- the inability to refinance outstanding indebtedness upon maturity or refinance such indebtedness on favorable terms, the risks of rising interest rates in connection with the Company's unsecured credit facility and other variable-rate borrowings and the ability of the Company to incur more debt without

stockholder approval, thereby increasing its debt service obligations, which could adversely affect the Company's cash flow;

- potential liability of the Company for environmental matters and the costs of compliance with certain government regulations which could have an adverse effect on Funds from Operations and the Company's financial condition and results of operations.

ITEM 2. PROPERTIES

As of December 31, 1997, the Company owned the Industrial Properties, representing an aggregate of 37.3 million rentable square feet, principally warehouse distribution properties, which were 95.7% leased, and the Retail Properties, representing an aggregate of 6.2 million rentable square feet, principally grocer-anchored community shopping centers, which were 96.1% leased. During the year ended December 31, 1997, no individual industrial or retail tenant accounted for greater than 2% of rental revenues or total square feet. As of December 31, 1997, the largest industrial tenant accounted for only 1.3% and 0.9% of industrial base rent and total base rent, respectively. As of December 31, 1997, the largest retail tenant accounted for only 4.0% and 1.3% of retail base rent and total base rent, respectively.

INDUSTRIAL PROPERTIES

Property Characteristics. The Industrial Properties, which consist primarily of warehouse distribution facilities suitable for single or multiple tenants, typically consist of multiple buildings (an average of five) and generally range between 300,000 and 600,000 rentable square feet, averaging 475,000 rentable square feet per Property. The following table identifies characteristics of the Company's typical industrial buildings:

INDUSTRIAL BUILDING PROFILE

<TABLE> <CAPTION>

	TYPICAL BUILDING	RANGE
<\$>	<c></c>	<c></c>
Rentable Square Feet	100,000	70,000 - 150,000
Clear Height	24 ft.	18 - 32 ft.
Building Depth	200 ft.	150 - 300 ft.
Truck Court Depth	110 ft.	90 - 130 ft.
Loading	Dock & Grade	Dock or Dock & Grade
Parking Spaces per 1,000 Square Feet	1.0	0.5 - 2.0
Square Footage Per Tenant	35,000	5,000 - 100,000
Office Finish	8%	3% - 15%
Site Coverage	40%	35% - 55%

 | |Lease Terms. The Industrial Properties are typically subject to lease on a "triple net basis," defined as leases in which tenants pay their proportionate share of real estate taxes, operating costs and utility costs, or subject to leases on a "modified gross basis," defined as leases in which tenants pay expenses over certain threshold levels. Lease terms typically range from three to 10 years, with an average of five years, excluding renewal options. The majority of the industrial leases do not include renewal options.

9

The table below details the regional diversification of the Industrial Properties by listing the individual markets in which the Company owns and operates its Industrial Properties.

INDUSTRIAL PROPERTIES BY MARKET

AS OF DECEMBER 31, 1997

<TABLE> <CAPTION>

- -----

- (1) Includes five leases aggregating 103,363 square feet that were in-place as of December 31, 1997, but which commenced in 1998.
- (2) Based upon the base rent at expiration.
- (3) Calculated as Annualized Base Rent divided by the square footage of expiring leases.

RETAIL PROPERTIES

Property Characteristics. The Retail Properties generally contain between 80,000 and 350,000 rentable square feet. On average, 67% of the rentable square feet for each of the Retail Properties is leased to one or more Anchor Tenants (defined as those retail tenants occupying more than 10,000 rentable square feet and all grocery stores and drugstores). The following table identifies characteristics of a typical Retail Property.

COMMUNITY SHOPPING CENTER PROFILE

<TABLE> <CAPTION>

	TYPICAL	
	BUILDING	RANGE
<s></s>	<c></c>	<c></c>
Rentable Square Feet	190,000	80,000 - 350,000
Percentage Leased by Anchor Tenants	67%	60% - 85%
Number of Tenants	25	10 - 50
Parking Spaces per 1,000 Square Feet	5.0	4.0 - 6.0
Square Footage Per Anchor Tenant	25 , 000	10,000 - 100,000
Average Square Footage Per Non-Anchor Tenant	1,500	750 - 5,000

 | |11

Lease Terms. The Retail Properties are typically leased on a triple net basis, defined as leases in which tenants pay their proportionate share of real estate taxes, operating costs and utility costs. In addition, some leases, including some Anchor Tenant leases, require tenants to pay percentage rents based on gross retail sales above predetermined thresholds. Typical Anchor Tenant leases also provide for payment of a percentage administrative fee in lieu of a management fee (calculated as a percentage of common area maintenance) which ranges between 5% and 15%. Lease terms typical for Anchor Tenants range from 10 to 20 years, with an average of 19 years, with renewal options for an additional 10 to 20 years at fixed rents. Tenant improvement allowances are standard and the amounts vary by submarket. Lease terms typical for Non-Anchor Tenants range from three to 10 years, with an average of seven years. Non-Anchor Tenants typically receive options to renew for an additional five-year term at market rents.

The table below details the regional diversification of the Retail

Properties by listing the individual markets in which the Company owns and operates its Retail Properties.

RECURRING BUILDING IMPROVEMENTS

The Company considers recurring building improvements to be expenditures that (i) are incurred subsequent to the first three years of ownership of the Property, during which the initial capital improvement plan is completed and (ii) prevent deterioration or maintain the building in an efficient operating condition. The table below summarizes recurring building improvements for the years ended December 31, 1994, 1995, 1996, and 1997 for the Industrial Properties and the Retail Properties. The amounts set forth below are not necessarily indicative of future levels of building improvements.

RECURRING TENANT IMPROVEMENTS AND LEASING COMMISSIONS

The tables below summarize for Industrial Properties and Retail Properties, separately, the recurring tenant improvements and leasing commissions per square

feet leased for the years ended December 31, 1994, 1995, 1996, and 1997. The recurring tenant improvements and leasing commissions represent costs incurred to lease space after the initial lease term of the initial tenant, excluding costs incurred to relocate tenants as part of a re-tenanting strategy. The tenant improvements and leasing commissions set forth below are not necessarily indicative of future tenant improvements and leasing commissions.

_ _____

(1) Purchase price plus acquisition costs and capital costs.

(2) Represents the development of a building.

- (3) Renovation with respect to a Property means capital improvements, which have totaled 20% or more of the total cost of such Property within a 24-month period or have resulted in material improvement of physical condition. Expansion with respect to a Property means construction resulting in an increase in the rentable square footage of an existing structure or the development of additional buildings on a Property on which existing buildings are located. Development with respect to a Property means new construction on a previously undeveloped location.
- (4) Represents expected date of shell completion. Such dates are based upon the Company's current planning estimates and forecasts and are therefore subject to change.
- (5) Represents total estimated cost of renovation, expansion or development, including initial acquisition costs. The estimates are based on the Company's current planning estimates and forecasts and are therefore subject to change.

PROPERTIES HELD THROUGH JOINT VENTURES, LIMITED LIABILITY COMPANIES AND PARTNERSHIPS

As of December 31, 1997, the Company held interests in eight joint ventures, limited liability companies and partnerships (collectively, the "Joint Ventures") with certain unaffiliated third parties (the "Joint Venture Participants"). Pursuant to the existing agreements with respect to each Joint Venture, the Company holds a greater than 50% interest in seven of the Joint Ventures and a 50% interest in the eighth Joint Venture, but in certain cases such agreements provide that the Company will be a limited partner or that the Joint Venture Participant will be principally responsible for day-to-day management of the Property (though in all such cases, the Company has approval rights with respect to major decisions involving the underlying Properties). Under the agreements governing the Joint Ventures, the Company and the Joint Venture Participant may be required to make additional capital contributions, and subject to certain limitations, the Joint Ventures may incur additional debt. Such agreements also impose certain restrictions on the transfer of the interest in the Joint Venture by the Company or the Joint Venture Participant, and provide certain rights to the Company or the Joint Venture Participant to sell its interest to the Joint Venture or to the other participant on terms specified in the agreement. All Joint Ventures terminate in 2024 or later, but the Joint Ventures may end earlier if the respective Joint Venture ceases to hold any interest in or have any obligations relating to the property held by such Joint Venture.

15

The following table sets forth certain information regarding the Joint Ventures as of December 31, 1997 (dollars in thousands):

<TABLE> <CAPTION>

PROPERTY	GROSS BOOK VALUE	MORTGAGE DEBT	MINORITY INTEREST	COMPANY'S EQUITY	FORM OF COMPANY'S INTEREST

Subtotal	166,994	(53,122)	(8,963)	104,909	
Total	\$235 , 376	\$(56,109)	\$(15,784)	\$163,483	

The Company accounts for all of the above investments on a consolidated basis for financial reporting purposes because of its ability to exercise control over significant aspects of the investment as well as its significant economic interest in such investments. See "Item 14, Note 2 of the Notes to Consolidated Financial Statements."

SECURED DEBT

As of December 31, 1997, the Operating Partnership had \$517.4 million of indebtedness secured by deeds of trust on 48 of the Properties. See "Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources" and Note 4 to the Company's consolidated financial statements included herewith. Management believes that as of December 31, 1997, the value of the Properties securing the respective obligations in each case exceeded the principal amount of the outstanding obligations.

ITEM 3. LEGAL PROCEEDINGS

There are no material pending legal proceedings, other than routine litigation incidental to its business, to which the Company is a party or of which any of its properties are the subject.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED SHAREHOLDER MATTERS

The Company's Common Stock began trading on the New York Stock Exchange ("NYSE") on November 21, 1997, under the symbol "AMB." As of March 11, 1998, there were 121 holders of record of the

16

Company's Common Stock (excluding shares held through The Deposit Trust Company, as nominee). Set forth below are the high and low sales prices per share of the Company's Common Stock, as reported on the NYSE composite tape, and the distribution per share paid by the Company during the period from November 26, 1997 through December 31, 1997.

<TABLE>

<CAPTION>

1997	HIGH	LOW	DISTRIBUTION
<\$>	<c></c>	<c></c>	<c></c>
4th Quarter (from 11/21/97)	\$25 1/8	\$22 1/4	\$0.134

On December 8, 1997, the Company declared a pro rata distribution of \$0.134 per common share, payable December 29, 1997 to stockholders of record on December 18, 1997. The pro rata distribution covered the period from November 26, 1997 through December 31, 1997, and was based upon \$0.3425 per common share for a full quarter. For Federal income tax purposes, 100% of the distribution was reported to stockholders as ordinary income.

In connection with the Formation Transactions, the Company issued 65,022,185 shares of common stock in consideration for the acquisition of certain properties. In addition, the Operating Partnership issued 2,542,163 LP Units in consideration for the acquisition of certain properties. Holders of the LP Units may redeem part or all of their LP Units for cash, or at the election of the Company, exchange such LP Units for shares of Common Stock on a one-for-one basis. This redemption/exchange right may not be exercised prior to The issuance of the Common Stock and the LP Units in connection with the Formation Transactions constituted private placements of securities which were exempt from the registration requirement of the Securities Act of 1933, as amended, pursuant to Section 4(2) and Rule 506 of Regulation D promulgated thereunder.

ITEM 6. SELECTED FINANCIAL AND OTHER DATA

SELECTED COMPANY AND PREDECESSOR FINANCIAL AND OTHER DATA

The following table sets forth selected consolidated historical financial and other data for the Company and its Predecessor on an historical basis for the years ended December 31, 1993, 1994, 1995, 1996 and 1997, and on a pro forma basis for the Company for the year ended December 31, 1997 (giving effect to the completion of the Formation Transactions, the Offering and certain property acquisitions and dispositions). The historical financial information contained in the tables should be read in conjunction with "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," the Consolidated Financial Statements and accompanying Notes in "Item 8. Financial Statements and Supplementary Data" and the financial schedule included elsewhere in the Form 10-K.

The historical results of the Company for 1997 include the results of operations of the Company, including property operations for the period from November 26, 1997 (the commencement of operations as a fully integrated real estate company) to December 31, 1997 and the results of the Company's Predecessor, an investment manager, for the period from January 1, 1997 to November 25, 1997.

SELECTED PROPERTY FINANCIAL AND OTHER DATA

For comparative purposes, the table that follows provides selected historical financial and other data of the Properties which were owned by the Company as of December 31, 1997 for periods prior to the Formation Transactions and excludes the results of the Predecessor. The table provides consolidated financial and other data on a pro forma basis after giving effect to the completion of the Formation Transactions, the Offering and certain property acquisitions (including the acquisition of 5.5 million square feet of industrial properties) and dispositions. The historical financial information contained in the tables should be read in conjunction with "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," the Consolidated Financial Statements and accompanying Notes in "Item 8. Financial Statements and Supplementary Data" and the financial schedule included elsewhere herein.

17

The historical results of the Properties for 1997 include the results achieved by the Company for the period from November 26, 1997 (acquisition date) to December 31, 1997 and the results achieved by the prior owners of the Properties for the period from January 1, 1997 to November 25, 1997. The historical results of operations of the Properties for periods prior to November 26, 1997 include Properties that were managed by the Predecessor and exclude the results of four properties that were contributed to the Company in the Formation Transactions that were not previously managed by the Predecessor. In addition, the historical results of operations include the results of properties acquired after November 26, 1997, from the date of acquisition of such properties to December 31, 1997.

In the opinion of management, the pro forma condensed consolidated financial information provides for all adjustments necessary to reflect the effects of the Formation Transactions, the Offering, property acquisitions and dispositions and certain other transactions. The pro forma information is unaudited and is not necessarily indicative of the consolidated results that would have occurred if the transactions and adjustments reflected therein had been consummated in the period or on the date presented, or on any particular date in the future, nor does it purport to represent the financial position, results of operations or changes in cash flows for future periods.

- -----

- Represents the Predecessor's historical financial and other data for the years ended December 31, 1993, 1994, 1995, and 1996. The Predecessor operated as an investment manager prior to November 26, 1997.
- (2) Represents the Predecessor's historical financial and other data for the period January 1, 1997 through November 25, 1997. The financial and other data of the Company, and the properties acquired in the Formation Transactions, have been included subsequent to November 26, 1997, the date of acquisition.

18

- (3) Pro forma financial and other data has been prepared as if the Formation Transactions, the Offering (as described in "Item 14. Notes to Consolidated Financial Statements, Note 1") and certain property acquisitions and dispositions had occurred on January 1, 1997.
- (4) Pro forma basic and diluted net income per share equals the pro forma net income divided by 85,874,513 and 86,156,556 shares, respectively.
- (5) EBITDA is computed as income from operations before disposal of properties and minority interests plus interest expense, income taxes, depreciation and amortization. Management believes that in addition to cash flows and net income, EBITDA is a useful financial performance measure for assessing the operating performance of an equity REIT because, together with net income and cash flows, EBITDA provides investors with an additional basis to evaluate the ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures.
- (6) FFO represents net income (loss) before minority interests and extraordinary items, adjusted for depreciation on real property and amortization of tenant improvement costs and lease commissions, gains (losses) from the disposal of properties and FFO attributable to minority interests in consolidated joint ventures whose interests are not convertible into shares of Common Stock. See "Management's Discussion and Analysis of Financial Condition and Results of Operations."
- (7) Secured debt as of December 31, 1997 includes unamortized debt premiums of approximately \$18,286. See "Item 14. Notes to Consolidated Financial Statements, Notes 2 and 4."

20

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with "Item 14. Notes to Consolidated Financial Statements" and "Item 6. Selected Financial and Other Data." Statements contained in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" which are not historical facts may be forward looking statements. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

GENERAL

Because of the significant impact of the Formation Transactions and the Offering on the Company's results of operations, the discussion below is presented as follows: (i) results of the Company and its Predecessor for 1997, 1996, and 1995, and (ii) results of the Properties for 1997, 1996, and 1995.

The historical results of the Company for 1997 include its results, including property operations, for the period from November 26, 1997 (the commencement of operations as a fully integrated real estate company) to December 31, 1997 and the results of the Company's Predecessor, an investment manager, for the period from January 1, 1997 to November 25, 1997, and the years ended December 31, 1996 and 1995. As an investment manager, the Predecessor's revenues consisted primarily of fees earned in connection with real estate management services. Management's discussion and analysis of the Company and Predecessor for the years ended December 31, 1997, 1996, and 1995 is limited to investment management and other income and general and administrative expenses, and excludes a discussion of rental revenues, operating expenses, interest expense and depreciation and amortization because such analysis is not comparable or meaningful given the differences in lines of business between the Company and the Predecessor.

The historical results of the Properties for 1997 include the results achieved by the Company for the period from November 26, 1997 (acquisition date)

to December 31, 1997 and the results achieved by the prior owners of the Properties for the period from January 1, 1997 to November 25, 1997. The discussion below for the years ended December 31, 1997, 1996 and 1995 is limited to a discussion of rental revenues, property operating expense and real estate taxes and excludes an analysis of other income, interest expense and depreciation and amortization because such analysis is not comparable or meaningful given the differences in capital structures between the Company and the prior owners of the Properties and the impact of the Formation Transactions and Offering on the Properties.

COMPANY AND PREDECESSOR RESULTS OF OPERATIONS

COMPANY AND PREDECESSOR -- YEARS ENDED DECEMBER 31, 1997 AND 1996

Investment management and other income. Investment management and other income for the period from January 1, 1997 to November 25, 1997 was \$29.0 million, which on an annualized basis represents a 34.1% increase over the year ended December 31, 1996. The increase reflects the growth in the portfolio under management. Investment management and other income for the period from November 26, 1997 to December 31, 1997 was \$0.6 million.

General and administrative expenses. General and administrative expenses for the period from January 1, 1997 to November 25, 1997 were \$19.4 million, which represents a 27.7% increase on an annualized basis over the year ended December 31, 1996. The increase was attributable to an increase in staffing that resulted from the growth in the portfolio under management.

PREDECESSOR -- YEARS ENDED DECEMBER 31, 1996 AND 1995

Investment management and other income. Investment management and other income for the years ended December 31, 1995 and 1996 was \$16.9 million and \$24.0 million, respectively, an increase of 42.0%. The increase from 1995 to 1996 was primarily due to management fees associated with a growing portfolio and increased economies of scale from managing this larger portfolio.

21

General and administrative expenses. General and administrative expenses for the years ended December 31, 1995 and 1996 were \$13.6 million and \$16.9 million, respectively, reflecting the increase in size of the portfolio under management.

PROPERTIES RESULTS OF OPERATIONS

The historical results of operations of the Properties for periods prior to November 26, 1997 include Properties that were managed by the Predecessor and exclude the results of four properties that were contributed to the Company in the Formation Transactions that were not previously managed by the Predecessor. In addition, the historical results of operations include the results of properties acquired after November 26, 1997, from the date of acquisition of such properties to December 31, 1997.

The historical property financial data presented herein show significant increases in revenues and expenses principally attributable to the substantial portfolio growth. As a result, the Company does not believe the year-to-year financial data are comparable to prior periods. Therefore, the analysis below shows (i) changes resulting from Properties that were held during the entire period for both years being compared (the "Core Portfolio") and (ii) changes attributable to acquisition and development activity. For the comparison between the years ended December 31, 1997 and 1996, the Core Portfolio consists of the 59 Properties acquired prior to January 1, 1996, and for the comparison between the years ended December 31, 1996 and 1995, the Core Portfolio consists of the 42 Properties acquired prior to January 1, 1995. The Company's future financial condition and results of operations, including rental revenues, may be impacted by the acquisition of additional properties. No assurance can be given that the past trends of revenues, expenses or income of the Company will continue in the future at their historical rates, and any variation thereforem may be material.

PROPERTIES -- YEARS ENDED DECEMBER 31, 1997 AND 1996

Rental revenues. Rental income, including tenant reimbursements and other property related income, increased by \$67.5 million, or 40.6%, for the year ended December 31, 1997, to \$233.9 million as compared to \$166.4 million for the year ended December 31, 1996. Approximately \$8.8 million, or 13.0% of this increase, was attributable to the Core Portfolio, with the remaining \$58.7 million attributable to Properties acquired in 1997 and 1996. The 6.3% growth in rental income in the Core Portfolio resulted primarily from the incremental effect of rental rate increases and reimbursement of expenses. In 1997, the Company increased average contractual or base rental rates on the Properties by 12% on 393 new and renewing leases totaling 7.5 million rentable square feet (representing 17.2% of the Properties' aggregate rentable square footage).

Property operating expenses and real estate taxes. Property operating expenses and real estate taxes increased by \$25.6 million, or 46.3%, for the year ended December 31, 1997, to \$80.9 million as compared to \$55.3 million for

the year ended December 31, 1996. Approximately \$3.4 million of this increase was attributable to the Core Portfolio, with the remaining \$22.2 million attributable to Properties acquired in 1997 and 1996. Core Portfolio real estate taxes and insurance expense increased by approximately \$1.4 million from 1996 to 1997. Core Portfolio other property operating expenses (excluding real estate taxes and insurance) increased by \$2.0 million from 1996 to 1997. The increases in expenses are primarily due to increases in property tax assessment values and incentive management fees expense.

PROPERTIES -- YEARS ENDED DECEMBER 31, 1996 AND 1995

Rental revenues. Rental income, including tenant reimbursements and other property related income, increased by \$60.2 million, or 56.7%, for the year ended December 31, 1996, to \$166.4 million as compared to \$106.2 million for the year ended 1995. Approximately \$7.5 million, or 12.5% of this increase, was attributable to the Core Portfolio, with the remaining \$52.7 million attributable to Properties acquired in 1996 and 1995. The 8.6% growth in rental income in the Core Portfolio resulted primarily from rental rate increases.

Property operating expenses and real estate taxes. Property operating expenses and real estate taxes increased by \$18.4 million, or 49.9%, for the year ended December 31, 1996, to \$55.3 million as compared to \$36.9 million for the year ended December 31, 1995. Approximately \$1.6 million of this increase was

22

attributable to the Core Portfolio, with the remaining \$16.8 million attributable to Properties acquired in 1996 and 1995. The Core Portfolio had an increase of approximately \$1.0 million in real estate tax and insurance expense. The other property operating expenses (excluding real estate taxes and insurance) for the Core Portfolio increased by \$0.6 million from 1995 to 1996. The increases in expenses are primarily due to increases in property tax assessment values and miscellaneous expenses.

LIQUIDITY AND CAPITAL RESOURCES

The Company expects that its principal sources of funding for acquisitions, development, expansion and renovation of the Properties will include the unsecured credit facility, permanent secured debt financing, proceeds from public and private unsecured debt offerings, proceeds from public and private equity offerings and cash flows provided by operations. Management believes that its liquidity and its ability to access private and public debt and equity capital are adequate to continue to meet liquidity requirements for the foreseeable future.

CAPITAL RESOURCES

The Company has a \$500 million unsecured revolving credit agreement (the "Credit Facility") with Morgan Guaranty Trust Company of New York as agent, and a syndicate of twelve other banks. The Credit Facility has a term of three years, and is subject to a fee that accrues on the daily average undrawn funds, which varies between 0.15% to 0.25% based on the Company's credit rating. The Company is using the Credit Facility principally for acquisitions and for general working capital requirements. Borrowings under the Credit Facility bear interest at LIBOR plus 110 basis points through August 1998 or until the Company receives an investment grade debt rating. Thereafter, borrowings under the Credit Facility will bear interest at a rate equal to LIBOR plus 90 to 120 basis points, depending on the Company's then current debt rating. As of December 31, 1997, the outstanding balance on the Credit Facility was \$150 million and bore interest at LIBOR plus 1.10%, resulting in an interest rate on most recent borrowings of 7.10%. Monthly debt service payments on the Credit Facility are interest only. The Credit Facility matures in November 2000. See "Note 4 of Notes to Consolidated Financial Statements." The total amount available under the Credit Facility fluctuates based upon the borrowing base, as defined in the agreement governing the Credit Facility. Currently, the total amount available is approximately \$460 million.

In connection with the Formation Transactions, the Company assumed a 12-year non-recourse financing facility, which is secured by six of the Properties. As of December 31, 1997, \$73 million was outstanding. Payments of interest only are due monthly at a fixed annual interest rate of 7.53%. The payment of principal is due December 12, 2008. Under the secured facility, the Company may substitute collateral, subject to certain requirements with respect to the property offered as replacement collateral.

In connection with the Formation Transactions, the Company also assumed mortgage indebtedness associated with 42 of the Properties. The aggregate principal amount of such mortgage indebtedness was \$444.4 million as of December 31, 1997. The mortgage indebtedness bears interest at rates varying from 7.01% to 10.38% per annum (with a weighted average of 7.87%) and final maturity dates ranging from 1998 to 2008.

As of December 31, 1997, the Company's total outstanding debt was approximately \$685.7 million, including unamortized debt premiums of approximately \$18.3 million, which were recorded in connection with the Formation Transactions. See "Note 4 of Notes to Consolidated Financial Statements." The total amount of debt principal to be paid in 1998 is approximately \$19.4 million, including normal principal amortization of approximately \$5.6 million.

In order to maintain financial flexibility and facilitate the rapid deployment of capital through market cycles, the Company presently intends to operate with a debt-to-total market capitalization ratio of less than 45%. Additionally, the Company intends to continue to structure its balance sheet in order to obtain an investment grade rating on its senior unsecured debt. The Company intends to keep the majority of its assets unencumbered to facilitate such rating. As of December 31, 1997, the Company's debt-to-total market capitalization ratio was approximately 23.6%.

23

LIQUIDITY

As of December 31, 1997, the Company had approximately \$39.9 million in cash and cash equivalents and \$150 million of outstanding borrowings drawn from the Credit Facility. The Company intends to use cash from operations and available borrowings under its Credit Facility to fund acquisitions and capital expenditures and to provide for general working capital requirements.

On December 8, 1997, the Company declared a pro rata distribution of \$0.134 per common share, payable December 29, 1997 to stockholders of record on December 18, 1997. The pro rata distribution covered the period from November 26, 1997 through December 31, 1997, and was based upon \$0.3425 per common share for a full quarter. For Federal income tax purposes, 100% of the distribution was reported to stockholders as ordinary income.

The anticipated size of the Company's distributions, using only cash from operations, will not allow it to retire all of its debt as it comes due. Therefore, the Company intends to repay maturing debt with net proceeds from future debt and/or equity financings. No assurance can be given, however, that future financings will be available on terms favorable to the Company.

LEASING ACTIVITY

During the year ending December 31, 1998, leases relating to approximately 5.7 million rentable square feet of the Industrial Properties, 13.1% of total rentable square feet, and 0.4 million rentable square feet of the Retail Properties, 1.0% of total rentable square feet, will expire. Although no assurances can be given, the Company expects that it will be able to renew or re-tenant the expiring square feet at then-prevailing market rates. In connection with the renewal and re-tenanting of space, the Company will likely incur tenant improvement and leasing costs. See "Properties -- Retail Properties -- Retail

CAPITAL COMMITMENTS

In addition to recurring capital expenditures and costs to renew or re-tenant space, the Company is currently in the process of renovating, expanding or developing six projects at a total estimated cost of \$89.9 million. Further, the Company has acquired or is in the process of acquiring additional properties. The Company presently expects to fund these expenditures with cash from operations and borrowings under the Credit Facility. Other than these capital items, the Company has no material capital commitments. The Company expects that its funds from operations and availability under its Credit Facility will be sufficient to meet expected capital commitments for the next 12 months.

INFLATION

Substantially all of the industrial and retail leases require the tenant to pay, as additional rent, a portion of any increases in real estate taxes and operating expenses over a base amount. In addition, many of the industrial and retail leases provide for fixed increases in base rent or indexed escalations (based on the Consumer Price Index or other measures). Management believes that inflationary increases in operating expenses will be offset, in part, by the expense reimbursements and contractual rent increases described above.

YEAR 2000 COMPLIANCE

The Company's current financial systems adequately provide for a four-digit year and management does not believe that the year 2000 issue will materially affect its operations. Additionally, the Company currently does not expect that the year 2000 issue will materially affect its operations due to problems encountered by its suppliers, customers and lenders.

FUNDS FROM OPERATIONS

Management believes that Funds from Operations ("FFO"), as defined by NAREIT, is an appropriate measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance of REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to those indicators in evaluating liquidity or operating performance.

The following table reflects the calculation of the Company's FFO on a pro forma basis after giving effect to the completion of the Offering, the Formation Transactions, property acquisitions and dispositions, and certain other transactions as if they had occurred on January 1, 1997. FFO is not presented for the Properties and the Company on an historical basis because it is not comparable or meaningful due to the significant differences in capital structures between the Company and the prior owners of the Properties.

- (1) The White Paper on Funds from Operations approved by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT") in March 1995 (the "White Paper") defines Funds from Operations as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of properties, plus real estate related depreciation and amortization. Management considers FFO an appropriate measure of performance of an equity REIT because it is predicated on cash flow analyses. The Company computes FFO in accordance with standards established by the White Paper, which may differ from the methodology for calculating FFO utilized by other REITs and, accordingly, may not be comparable to such other REITs. FFO should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Properties' financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Properties' liquidity, nor is it indicative of funds available to fund the Properties' cash needs, including its ability to make distributions.
- (2) Represents FFO attributable to minority interests in consolidated joint ventures for the period presented, which has been computed as minority interests' share of net income before disposal of properties plus minority interests' share of real estate-related depreciation and amortization of the consolidated joint ventures for such period. Such minority interests are not convertible into shares of Common Stock.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors of AMB Property Corporation:

We have audited the accompanying consolidated balance sheets of AMB Property Corporation and subsidiaries as of December 31, 1997 and 1996, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 1997. These financial statements and the schedule referred to below are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and the schedule based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of AMB Property Corporation, and subsidiaries as of December 31, 1997 and 1996, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 1997, in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule listed in the index to the financial statements is presented for purposes of complying with the Securities and Exchange Commissions rules and is not a required part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (IN THOUSANDS, EXCEPT SHARE AND SQUARE FEET DATA)

1. ORGANIZATION AND FORMATION OF COMPANY

AMB Property Corporation, a Maryland corporation, (the "Company") commenced operations as a fully integrated real estate company effective with the completion of its initial public offering (the "Offering") on November 26, 1997. The Company has elected to be taxed as a real estate investment trust ("REIT") under Sections 856 through 860 of the Internal Revenue Code of 1986 (the "Code"), as amended. The Company, through its controlling interest in its subsidiary AMB Property, L.P., a Delaware limited partnership (the "Operating Partnership"), is engaged in the ownership, operation, management, acquisition, renovation, expansion, and development of industrial properties and community shopping centers in target markets nationwide. Unless the context otherwise requires, the "Company" shall include AMB Property Corporation, the Operating Partnership and its controlled subsidiaries.

The Company and the Operating Partnership were formed shortly before

consummation of the Offering. AMB Institutional Realty Advisor, Inc., a California corporation and registered investment advisor (the "Predecessor") formed AMB Property Corporation, a wholly owned Maryland subsidiary, and merged with and into the Company (the "Merger") in exchange for 4,746,616 shares of the Company's Common Stock. In addition, the Company and the Operating Partnership acquired, through a series of mergers and other transactions, 31.8 million rentable square feet of industrial property and 6.3 million rentable square feet of retail property in exchange for 65,022,185 shares of the Company's Common Stock, 2,542,163 limited partnership interests ("LP Units") in the Operating Partnership, the assumption of debt, and to a limited extent, cash. The purchase method of accounting was applied to the acquisition of the properties. Collectively, the Merger and the other formation transactions described above are referred to as the "Formation Transactions."

On November 26, 1997, the Company completed its Offering of 16,100,000 shares of Common Stock, \$0.01 par value per share (the "Common Stock") for \$21.00 per share, resulting in gross offering proceeds of approximately \$338,100. Net of underwriters' commission and offering costs aggregating \$38,068, the Company received approximately \$300,032 in proceeds from the Offering. The net proceeds of the Offering were used to repay indebtedness, to purchase interests from certain investors who elected not to receive shares or units in the Company, to fund property acquisitions, and to meet general corporate working capital requirements.

As of December 31, 1997, the Company owns a 97.1% interest in the Operating Partnership represented by a number of units of general partnership interest ("GP Units") which are convertible into an equal number of shares of Common Stock. The investors that elected to receive LP Units own the remaining 2.9% ownership interest in the Operating Partnership. For local law purposes, properties in certain states are owned through limited partnerships and limited liability companies owned 99% by the Operating Partnership and 1% by a wholly owned subsidiary of the Company. The ownership of such Properties through such entities does not materially affect the Company's overall ownership of the interests in the Properties. As the sole general partner of the Operating Partnership, the Company has the full, exclusive and complete responsibility and discretion in the management and control of the Operating Partnership.

In connection with the Formation Transactions, the Operating Partnership formed AMB Investment Management Corporation, a Maryland corporation ("AMB Investment Management"). AMB Investment Management conducts its operations through AMB Investment Management Limited Partnership, a Maryland limited partnership ("AMB Investment Management Partnership"), of which it is the sole general partner and owns the entire capital interest. AMB Investment Management was formed to succeed to the Predecessor's investment management business of providing real estate investment management services on a fee basis to clients.

The Operating Partnership purchased 100% of AMB Investment Management's nonvoting preferred stock (representing a 95% economic interest). The executive officers of the Company collectively purchased

F-6 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

100% of the Investment Management Subsidiary's voting common stock (representing a 5% economic interest therein).

As of December 31, 1997, the Company owned 37.3 million rentable square feet of industrial properties (the "Industrial Properties"), principally warehouse distribution properties, that were 95.7% leased and 6.2 million rentable square feet of retail properties (the "Retail Properties"), principally grocer-anchored community shopping centers, that were 96.1% leased. Collectively, the Industrial Properties and the Retail Properties are referred to as the "Properties."

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Generally Accepted Accounting Principles

These financial statements have been prepared in accordance with generally accepted accounting principles using the accrual method of accounting. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

The accompanying consolidated financial statements include the financial position, results of operations and cash flows of the Company, its wholly owned qualified REIT subsidiaries, the Operating Partnership, and eight joint ventures (the "Joint Ventures") in which the Company has a controlling interest. Third-party equity interests in the Operating Partnership and the Joint Ventures are reflected as minority interests in the consolidated financial statements.

All significant intercompany amounts have been eliminated.

Basis of Presentation

The consolidated financial statements of the Company for 1997 include the results of operations of the Company, including property operations for the period from November 26, 1997 (the commencement of operations as a fully integrated real estate company) to December 31, 1997 and the results of the Company's Predecessor, an investment manager, for the period from January 1, 1997 to November 25, 1997.

Investments in Real Estate

Investments in real estate are stated at the lower of depreciated cost or net realizable value. Net realizable value for financial reporting purposes is reviewed for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying amount of a property may not be recoverable. Impairment is recognized when estimated expected future cash flows (undiscounted and without interest charges)are less than the carrying amount of the property. To the extent an impairment has occurred, the excess of the carrying amount of the property over its estimated fair value will be charged to income. As of December 31, 1997, there were no impairments of the carrying values of the Properties.

Depreciation and amortization are calculated using the straight-line method over the estimated useful lives of the investments. The estimated lives are as follows:

The cost of buildings and improvements includes the purchase price of the property or interest in property, legal fees and acquisition costs, and interest, property taxes, and other costs incurred during the period of construction.

F-7 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Expenditures for maintenance and repairs are charged to operations as incurred. Significant renovations or betterments that extend the economic useful life of assets are capitalized.

Project costs directly associated with the development and construction of a real estate project are capitalized as construction in progress. In addition, interest, real estate taxes and other costs are capitalized during the construction period.

Cash and Cash Equivalents

Cash and cash equivalents include cash held in financial institutions and other highly liquid short-term investments with original maturities of three months or less. Cash and cash equivalents as of December 31, 1997 include restricted cash of \$8,074, which represents amounts held in escrow in connection with property purchases and capital improvements.

Deferred Financing

Costs incurred in connection with financing are capitalized and amortized to interest expense on a straight-line basis (which approximates the effective interest method) over the term of the related loan. As of December 31, 1997, deferred financing fees were \$871, net of accumulated amortization of \$29. Such amounts are included in Other Assets on the consolidated balance sheet.

Fair Value of Financial Instruments

The Company's financial instruments include short-term investments, accounts receivable, accounts payable, accrued expenses, construction loans payable, mortgage debt, secured debt, unsecured notes payable, and an unsecured credit facility. The fair value of these instruments approximates its carrying or contract values.

Debt Premiums

In connection with the Formation Transactions, the Company assumed certain secured debt with an aggregate principal value of \$517,031 and a fair value of \$535,613. The difference between the principal value and the fair value was recorded as a debt premium. The debt premium is being amortized into interest expense over the term of the related debt instrument using the effective interest method. As of December 31, 1997, the unamortized debt premium was \$18,286.

Minority Interests

Minority interests in the Company represent the limited partnership interests in the Operating Partnership and interests held by certain third parties in eight real estate joint ventures that are consolidated for financial reporting purposes. Such investments are consolidated because 1) the Company owns a majority owner interest, or 2) the Company holds significant control over the entity through a 50% or greater ownership interest combined with the ability to control major operating decisions such as approval of budgets, selection of property managers and change in financing.

The following table distinguishes the minority interest ownership held by certain joint ventures ("Minority Interest -- Joint Ventures") and the limited partnership interests' in the Operating Partnership ("Minority Interest -- Limited Partners") as of December 31, 1997.

<TABLE>

<\$>	<c></c>
Minority Interest Joint Ventures	\$15,784
Minority Interest Limited Partners	49,368
	\$65 , 152

</TABLE>

F-8 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Revenues

The Company, as a lessor, retains substantially all of the benefits and risks of ownership of the Properties and accounts for its leases as operating leases. Rental income is recognized on a straight-line basis over the term of the leases.

Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as revenue in the period the applicable expenses are incurred.

Investment Management and Other Income

Investment management income consists primarily of professional fees generated from the Predecessors' real estate investment management services for periods prior to the Formation Transactions and the Company's equity in the earnings of AMB Investment Management for periods subsequent to the Formation Transactions. Other income consists primarily of interest income on cash and cash equivalents.

Investment Management Expense

Investment management expense represents the operating expenses of the Predecessor for periods prior to November 26, 1997 and consists of salaries and benefits and other management related expenses.

Reclassifications

The consolidated financial statements for prior periods have been reclassified to conform with current classifications with no effect on results of operations.

Future Accounting Pronouncements

In June of 1997, the FASB issued SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." This statement, effective for financial statements for periods beginning after December 15, 1997, requires that a public business enterprise report financial and descriptive information about its reportable operating segments. Generally, information is required to be reported on the basis that it is used internally for evaluating segment performance and deciding how to allocate resources to segments. The Company expects to adopt this SFAS in 1998 to the extent applicable.

3. TRANSACTIONS WITH AFFILIATES

As discussed in "Organization and Formation of the Company," the Operating Partnership formed AMB Investment Management (which conducts its operations through the Investment Management Partnership) for the purpose of carrying on the operations of the Predecessor. The Company and the Investment Management Partnership have an agreement that allows for the sharing of certain costs and employees. Additionally, the Company provides the Investment Management Partnership with certain acquisition-related services.

As part of the Formation Transactions, the Operating Partnership was required to pay an amount equal to the net working capital balances at November 25, 1997 of the Predecessor and the acquired properties to the owners of said entities. As of December 31, 1997, the Company owed approximately \$37,808 to owners related to these working capital distributions. Such amount is included in Payable to affiliates on the consolidated balance sheet and was paid subsequent to year-end.

The Company and the Investment Management Partnership share common office space under lease obligations of an affiliate of the Predecessor. Such lease obligations are charged to the Company and the Investment Management Partnership at cost. For the period ended December 31, 1995, 1996 and 1997, the Company paid approximately \$435, \$510 and \$700, respectively for occupancy costs related to the lease obligations of the affiliate.

> F-9 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

4. DEBT

As of December 31, 1997, debt, excluding unamortized debt premiums, consists of the following:

<table></table>	
<\$>	<c></c>
Secured debt, varying coupon interest rates from 7.01% to	
10.38%, due November 1998 to December 2008	\$517 , 366
Unsecured credit facility, variable interest at LIBOR plus	
1.10% (7.10% at December 31, 1997) due November 2000	150,000
Total Debt	\$667 , 366

</TABLE>

Secured debt generally requires monthly principal and interest payments. The secured debt is secured by deeds of trust on 48 Properties. The carrying value of real estate investments pledged as collateral under deeds of trust for the secured debt is \$1,049,003 as of December 31, 1997. All of the secured debt bears interest at fixed rates, except for one loan which bears a variable interest rate at LIBOR plus 2.75%, 8.75% at December 31, 1997, or prime plus 5% at the borrower's option. The secured debt has various financial and non-financial covenants. Additionally, certain of the secured debt is cross-collateralized.

The Company has a \$500,000 unsecured revolving credit agreement (the "Credit Facility") with Morgan Guaranty Trust Company of New York as agent, and a syndicate of twelve other banks. The Credit Facility has a term of three years, and is subject to a fee that accrues on the daily average undrawn funds, which varies between 0.15% to 0.25% based on the Company's credit rating. The Credit Facility has various financial and non-financial covenants.

The weighted-average fixed interest rate on secured debt at December 31, 1997, was 7.82%. Interest capitalized related to construction projects for the period from November 26, 1997 to December 31, 1997, was \$448. There was no capitalized interest for periods prior to the Formation Transactions.

The scheduled maturities of the secured debt as of December 31, 1997 are as follows:

<table></table>	
<\$>	<c></c>
1998	\$ 19 , 390
1999	9,666
2000	11,862
2001	35,654
2002	43,967
Thereafter	396 , 827
	\$517,366

</TABLE>

5. LEASING ACTIVITY

Future minimum rental income due under noncancelable leases in effect at December 31, 1997, with tenants is as follows:

<table></table>	
<s></s>	<c></c>
1998	\$ 214,400
1999	188,926
2000	160,592
2001	128,241
2002	101,733
Thereafter	459,070
	\$1,252,962

In addition to minimum rental payments, certain tenants pay reimbursements for their pro rata share of specified operating expenses, which amounted to \$5,267 for the period from November 26, 1997 to December 31, 1997. These amounts are included as rental income and operating expenses in the accompany-

> F-10 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

ing consolidated statements of operations. Certain of the leases also provide for the payment of additional rent based on a percentage of the tenant's revenues. Some leases contain options to renew. No individual tenant accounts for greater than 2% of rental revenues.

6. INCOME TAXES

The Company intends to be taxed as a REIT under the Code for the fiscal year ended December 31, 1997. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 95% of its taxable income. It is management's intention to adhere to these requirements and maintain the Company's REIT status. As a REIT, the Company generally will not be subject to corporate level federal income tax on net income it distributes currently to its stockholders. As such, no provision for federal income taxes has been included in the accompanying consolidated financial statements. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property and to federal income.

For federal income tax purposes, cash distributions paid to stockholders may be characterized as ordinary income, return of capital (generally non-taxable) or capital gains. On December 8, 1997, the Company declared a distribution of \$0.134 per common share, payable on December 29, 1997 to stockholders of record on December 18, 1997. The distribution covered the period from November 26, 1997 through December 31, 1997. For Federal income tax purposes, 100% of the distribution was ordinary income.

Prior to the Merger, the Predecessor conducted its business as an S corporation, and therefore was exempt from federal income taxes under Subchapter S of the Internal Revenue Code. Under this election federal income taxes were paid by the stockholders of the Predecessor.

7. STOCK INCENTIVE PLAN AND 401(K) PLAN

STOCK INCENTIVE PLAN

In November 1997, the Company established a Stock Option and Incentive Plan (the "Stock Incentive Plan") for the purpose of attracting and retaining eligible officers, directors and employees. The Company has reserved for issuance 5,750,000 shares of Common Stock under the Stock Incentive Plan. In November 1997, the Company granted 3,153,750 non-qualified options, to certain directors, officers and employees. Each option is exchangeable for one share of the Company's Common Stock and has an exercise price equal to \$21.00, the Company's market price at the date of grant. The options have a ten-year term and vest pro rata in annual installments over a four-year period from the date of grant.

The Company applies APB Opinion No. 25, "Accounting for Stock Issued to Employees" and related interpretations in accounting for its Stock Incentive Plan. Opinion 25 measures compensation cost using the intrinsic value based method of accounting. Under this method, compensation cost is the excess, if any, of the quoted market price of the stock at the date of grant over the amount an employee must pay to acquire the stock. Accordingly, no compensation cost has been recognized for the Company's Stock Incentive Plan, as the option price at the date of grant was equal to the market price. However, if the Company had measured compensation cost using the fair value base method prescribed in SFAS 123, "Accounting for Stock-Based Compensation," the impact on pro forma net income and earnings per share would not have been material.

The fair value of each option grant was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants in 1997: dividend yield of 6.52%, expected volatility of 18.75%, risk-free interest rate of 5.86%, and expected lives of 10 years.

> F-11 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Following is a summary of the option activity for the year ended December 31, 1997:

	SHARES UNDER OPTION (000)	EXERCISE PRICE	CONTRACTUAL LIFE
<s></s>	<c></c>	<c></c>	<c></c>
Outstanding, 11/25/97			
Granted	3,154	\$21.0	10 years
Exercised			
Forfeited	(10)		
Outstanding, 12/31/97	3,144	\$21.0	10 years
	=====	=====	
Options exercisable at year-end	184	\$21.0	
	=====	=====	
Fair value of options granted during the year	\$2.28		

RESTRICTED STOCK

In 1997, the Company sold 5,712 restricted shares of its Common Stock to certain independent directors for 0.01 per share in cash.

401(k) PLAN

In November 1997, the Company established a Section 401(k) Savings/Retirement Plan (the "Section 401(k) Plan"), which is a continuation of the Section 401(k) plan of the Predecessor, to cover eligible employees of the Company and any designated affiliate. The Section 401(k) Plan, permits eligible employees of the Company to defer up to 10% of their annual compensation, subject to certain limitations imposed by the Code. The employees' elective deferrals are immediately vested and non-forfeitable upon contribution to the Section 401(k) Plan. The Company matches the employee contributions to the Section 401(k) Plan in an amount equal to 50% of the first 3.5% of annual compensation deferred by each employee and may also make discretionary contributions to the plan. As of December 31, 1997, the Company's accrual for 401(k) match was \$140. Such amount was included in Other liabilities on the consolidated balance sheet.

Except for the Section 401(k) Plan, the Company offers no other post-retirement or post-employment benefits to its employees.

9. PRO FORMA INFORMATION (UNAUDITED)

The following unaudited pro forma condensed consolidated statement of operations has been prepared as if the Formation Transactions, the Offering (as described in Note 1) and property acquisitions and dispositions had occurred on January 1, 1996. In the opinion of management, the pro forma condensed consolidated statement of operations does not purport to present the consolidated results that would have occurred if the aforementioned transactions had been consummated on January 1, 1996, nor does it purport to present the consolidated results of operations for future periods.

10. COMMITMENTS AND CONTINGENCIES

Litigation

In the normal course of business, from time to time, the Company is involved in legal actions relating to the ownership and operations of its Properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on the consolidated financial position, results of operations, or cash flows of the Company.

Environmental Matters

The Company follows the policy of monitoring its properties for the presence of hazardous or toxic substances. The Company is not aware of any environmental liability with respect to the Properties that would have a material adverse effect on the Company's business, assets or results of operations. There can be no assurance that such a material environmental liability does not exist. The existence of any such material environmental liability would have an adverse effect on the Company's results of operations and cash flow.

General Uninsured Losses

The Company carries comprehensive liability, fire, flood, environmental, extended coverage and rental loss insurance with policy specifications, limits and deductibles customarily carried for similar properties. There are, however, certain types of extraordinary losses that may be either uninsurable, or not economically insurable. Should an uninsured loss occur, the Company could lose its investment in, and anticipated profits and cash flows, from a property.

Certain of the Properties are located in areas that are subject to earthquake activity; the Company has therefore obtained limited earthquake insurance.

AMB PROPERTY CORPORATION

SCHEDULE III

CONSOLIDATED REAL ESTATE AND ACCUMULATED DEPRECIATION -- (CONTINUED)

A summary of activity for real estate and accumulated depreciation for the year ended December 31, 1997 is as follows:

<TABLE>

<CAPTION>

	1997(5)
<s></s>	<c></c>
INVESTMENTS IN REAL ESTATE:	
Balance at beginning of year	\$
Acquisition of Properties(6)	2,367,851
Improvements	5,300
Delence at end of year	\$2,373,151
Balance at end of year	Ş∠, S7S, ISI
ACCUMULATED DEPRECIATION:	
Balance at beginning of year	
Depreciation expense	4,153
· · · · · · · · · · · · · · · · · · ·	
Balance at end of year	\$ 4,153

</TABLE>

- -----

- As of December 31, 1997, Properties with a net book value of \$170,979 serve as collateral for outstanding indebtedness under a secured debt facility of \$73,000.
- (2) As of December 31, 1997, the aggregate cost for federal income tax purposes of investments in real estate was approximately \$2,231,504.
- (3) Consists of two properties with seven buildings in Los Angeles and one building in Anaheim.
- (4) Consists of two properties with five buildings in Houston and 18 buildings in Dallas.
- (5) The Company was formed in November 1997. Since the Company did not own real estate prior to the Formation Transaction, a reconciliation of activity for real estate and accumulated depreciation is not provided for the years ended December 31, 1996 and 1995.
- (6) As discussed in the "Notes to Consolidated Financial Statements -- Formation and Organization of the Company," the Company acquired Properties with a value of \$2,216,137 in exchange for shares of the Company's stock and LP

units in the Operating Partnership.

CONSENT OF INDEPENDENT PUBLIC ACCOUNTANTS

As independent public accountants, we hereby consent to the incorporation by reference of our report dated January 27, 1998, included in the AMB Property Corporation 1997 Form 10-K into AMB Property Corporation's previously filed Registration Statement on Form S-8 (file number 333-42015).
