Use of Proceeds:	The issuer intends to use the net proceeds to redeem the approximately \$182 million aggregate principal amount outstanding of its 5.625% notes due November 15, 2016, which the issuer called for redemption on May 14, 2014 and for general corporate purposes, including to repay or repurchase other indebtedness. In the short term, the issuer intends to use the net proceeds to repay borrowings under its multi-currency senior term loan.
Currency of Payment:	All payments of principal of, and premium, if any, and interest on, the Notes, including any payments made upon any redemption of the Notes, will be made in euros. If the euro is unavailable to the issuer due to the imposition of exchange controls or other circumstances beyond the issuer's control or the euro is no longer used by the member states of the European Monetary Union that have adopted the euro as their currency or for the settlement of transactions by public institutions within the international banking community, then all payments in respect of the Notes will be made in U.S. dollars until the euro is again available to the issuer or so used.
Payment of Additional Amounts:	The issuer will, subject to certain exceptions and limitations, pay additional amounts on the Notes as are necessary in order that the net payment by the issuer or the paying agent of the principal of, and premium, if any, and interest on, the Notes to a holder who is not a United States person, after withholding or deduction for any present or future tax, duty, assessment or other governmental charge of whatever nature imposed or levied by the United States or any taxing authority thereof or therein, will not be less than the amount provided in the Notes to be then due and payable.
Redemption for Tax Reasons:	The issuer may offer to redeem all, but not less than all, of the Notes in the event of certain changes in the tax laws of the United States (or any taxing authority thereof or therein) which would obligate the issuer to pay additional amounts as described above. This redemption would be at a redemption price equal to 100% of the principal amount of the Notes, together with accrued and unpaid interest on the Notes to, but not including, the date fixed for redemption.
